McLean County Regional Planning Commission for the

Bloomington-Normal Urbanized Area

Draft for final action on June 23, 2023

TRANSPORTATION IMPROVEMENT PROGRAM

STATE FISCAL YEARS 2024-2028

Draft For Public Review May 23 through June 22, 2023

As of the publication date of this draft, the Illinois Department of Transportation, District 5, has not yet identified projects in the Metropolitan Planning Area. State projects will be included in the FY 2024 – 2028 Transportation Improvement Program either through the public review process or through later amendment.

Prepared by:
McLean County Regional Planning Commission (MCRPC)

Adoption June 23, 2023

McLEAN COUNTY REGIONAL PLANNING COMMISSION BLOOMINGTON-NORMAL URBANIZED AREA

RESOLUTION June 23, 2023

The McLean County Regional Planning Commission Transportation Policy Committee hereby approves the Fiscal Years 2024 - 2028 Transportation Improvement Program. The State FY 2024 Annual Element of the Transportation Improvement Program includes projects for all transportation modes in the Bloomington-Normal Urbanized Area for the period July 1, 2023 through June 30, 2024.

The planning process carried out by the McLean County Regional Planning Commission, under the direction of the Policy Committee and the Technical Committee of the Metropolitan Planning Organization (MPO) of the Bloomington-Normal Urbanized Area in cooperation with the Illinois Department of Transportation, is being carried on in conformance with the applicable requirements of:

- 1. 23 U.S.C. 134, Section 8 of the Urban Mass Transportation Act (49 U.S.C. 1607); and
- 2. Sections 174 and 176 (c) and (d) of the Clean Air Act (42 U.S.C. 7504, 7506 c and d).
- 3. Sections 450.334 (a) (1) (5).

The MPO planning process is self-certified and is comprehensive, coordinated, and continuing.

John Burrill, Chairperson MCRPC	Mboka Mwilambwe, Mayor City of Bloomington

METROPOLITAN TRANSPORTATION PLANNING PROCESS SELF-CERTIFICATION

In accordance with 23 CFR 450.336 (a), the Illinois Department of Transportation and the McLean County Regional Planning Commission, Metropolitan Planning Organization for the Bloomington-Normal urbanized area, hereby certify the metropolitan transportation planning process is being carried out in accordance with all applicable requirements including:

- 1. 23 U.S.C. 134, 49 U.S.C. 5303, and 23 CFR part 450.336(a);
- 2. Sections 174 and 176 (c) and (d) of the Clean Air Act, as amended [42 U.S.C. 7504, 7506 (c) and (d) and 40 CFR part 93;
- 3. Title Vi of the Civil Rights Act of 1964, as amended [42 U.S.C. 2000d-1] and 49 CFR part 21;
- 4. 49 U.S.C. 5332 prohibiting discrimination on the basis of race, color, religion, national origin, sex or age in employment or business opportunity;
- 5. Section 1101 (b) of the FAST Act (Pub. L. 114-357) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
- 6. 23 CFR part 230 regarding the implementation of an equal employment opportunity program on federal and federal-aid highway construction contracts;
- 7. The provisions of the American with Disabilities Act (ADA) of 1990 (42 U.S.C. 12101 et seq) and 49 CFR parts 27, 37 38;
- 8. The Older Americans Act, as amended (42 USC 6101) prohibiting discrimination on the basis of age in programs or activities receiving federal financial assistance;
- 9. 23 U.S.C. 324 regarding the prohibition against discrimination based on gender, and;
- 10. The Rehabilitation Act of 1973 (29 USC 794, §504) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

Preamble

<u>Transportation Improvement Program, FY 2024 - 2028</u> <u>Bloomington-Normal Urbanized Area</u>

The Transportation Improvement Program (TIP) is a five-year statement of programmed and planned road, bicycle, pedestrian and multimodal transportation projects and transit capital and operations projects located within the Metropolitan Planning Area boundary of the Bloomington-Normal Urbanized Area¹. Road, trail and other facility information is provided by the following jurisdictions; the State of Illinois through IDOT District 5, the County of McLean, the City of Bloomington, and the Town of Normal. Public Transit and \$5310 agency information is provided by Connect Transit, SHOW BUS and agencies receiving \$5310 grant awards. The five one-year periods reported in the TIP coincide with the State of Illinois fiscal year, which in any calendar year begins on July 1 and terminates on June 30 of the following calendar year.

The McLean County Regional Planning Commission is the designated Metropolitan Planning Organization (MPO) for the Bloomington-Normal Urbanized Area. As reported following a Federal Highway Administration program review in 2016, MCRPC complies with the requirements for self-certification. In October 2022, MCRPC adopted the Metropolitan Long-Range Transportation Plan 2050 (MLRTP 2050). An update of the MPO Cooperative Agreement was also approved and executed by the local parties to the agreement. As of September 2018, MCRPC adopted an updated Title VI Plan, which incorporates the Public Participation Plan for Transportation and the Limited English Proficiency Assistance Plan. Pursuant to the MLRTP 2050, the Title VI Plan and the Public Participation Plan will be updated as separate documents.

The TIP is prepared by the staff of the McLean County Regional Planning Commission in cooperation with the Federal Highway Administration, the Federal Transit Administration, the Illinois Department of Transportation, the City of Bloomington, the Town of Normal, McLean County, the Bloomington-Normal Airport Authority, the Bloomington-Normal Connect Transit, SHOW BUS and other urban and regional transit service providers.

The MPO provides the forum for regional comprehensive, coordinated and continuing transportation planning and programming for the urbanized area. Projects included in this TIP have been reviewed for consistency with the adopted Metropolitan Long-Range Transportation Plan 2050 for the Bloomington-Normal Metropolitan Planning Area. All significant federally-funded projects were found to be consistent with the plan. The project selection process conducted by the MPO Technical Committee considers public safety, congestion, regional and local needs, and maintenance of the system, as well as the goals, strategies and tasks delineated in the MLRTP 2050. The TIP has been reviewed and approved by the MPO Technical and Policy committees, and by the Regional Planning Commission.

_

¹ See Appendix 5 for a map and description of the MPA boundary lines.

The existing transportation system within the MPO planning boundaries is being adequately operated and maintained with the revenue sources that are provided through federal, state and local jurisdictions. The 2024 - 2028 Transportation Improvement Program is fiscally constrained. Funding estimates are based on anticipated state, federal, and local funding sources for the region. Jurisdictions involved in TIP preparation maintain a realistic level of program flexibility. Local and regional priorities are subject to change during the time frame represented by the TIP.

As prescribed in 23 CFR 450.334 (a), the TIP:

- prioritizes transportation projects into five one-year periods;
- includes all projects utilizing Title 23 funds, and;
- includes all regionally significant projects that require Federal Highway Administration and/or Federal Transit Administration approval.

For informational purposes, the TIP includes all local and state projects programmed for roads functionally classified as collectors or arterials, and local projects planned for non-classified streets and roads, as well as pedestrian and bicycle facilities, urban and rural public transit services, non-profit transportation services and jurisdiction-wide ongoing projects that address infrastructure sustainability.

The TIP has been prepared in accordance with the adopted MPO Public Participation Plan (see Appendix 8). Reasonable notice of the public comment period and the public hearing has been provided. The draft TIP was made available for public comment for a thirty-day period prior to its adoption and the TIP was presented at a public hearing conducted by the Technical Committee. Appendixes 9 through 11 include:

- the summary of the comments submitted regarding the TIP;
- the minutes of the MPO Policy and Technical Committee meetings where the comments were considered; and,
- the advertisement of the public hearing and the public comment period.

Title VI of the Civil Rights Act (42 U.S.C. 2000–1) states that:

"No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program, or activity receiving Federal financial assistance."

The Executive Order on Environmental Justice further amplifies Title VI by providing that "each Federal agency shall make achieving environmental justice part of its mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects of its programs, policies, and activities on minority populations and low-income populations." The Implementation of Title VI is conducted in part through the McLean County Regional Planning Commission Transportation Advisory Committee (TAC). The TAC is a collaborative coalition of diverse agencies and organizations that address ways in which local government and transportation service

providers can cooperate to best utilize resources. The majority of the public agencies involved are human service organizations that serve persons that are part of a minority group, persons with disabilities, seniors and persons with low incomes pursuant to standards established by the U.S. Department of Housing and Urban Development and other federal authorities. The Committee engages in continuous outreach efforts to involve underserved populations in the urbanized area. The Committee also serves as a core component in the process of human services transportation planning in the metropolitan planning area.

The MCRPC's transportation planner serves as administrative chair and distributes meeting records to an extended list of organizations. The Committee reviews the current transportation needs of the populations represented and served by committee members. The committee provides letters of support for applications to pursue funding for transportation programs that target underserved populations.

MCRPC transportation staff members serve as regional coordinators for the five-county Region Six Human Services Transportation Joint Committees, included the administration and updating of the regional plan, and mobility management and other tasks.

Additional outreach to underserved communities takes place through direct engagement with and participation in the work of community organizations, neighborhood groups, advocacy groups working on behalf of seniors, minority groups, including those whose members may have limited English proficiency, seniors, people with disabilities, low-income households and others. The 2018 Public Participation Plan, included in the MCRPC 2018 Title VI Plan, offers greater detail on public outreach, and engagement in the transportation planning process.

Each September the McLean County Regional Planning Commission issues a report on federally obligated projects for the prior State fiscal year. The reports, titled *Federal Transportation Investment in the Bloomington – Normal Urbanized Area* are available for review on the Commission's website at www.mcplan.org.

TRANSPORTATION IMPROVEMENT PROGRAM FISCAL YEARS 2024- 2028

Road, Pedestrian and Bicycle Projects for the Bloomington-Normal Urbanized Area

Project Selection and Management

Project Selection, Approval and Priorities

Early in each calendar year the McLean County Regional Planning Commission (MCRPC) initiates the update of the Transportation Improvement Program (TIP), the five-year compilation of transportation projects programmed or planned by the participants in the Bloomington-Normal Area metropolitan transportation planning process, as directed by the U.S. Department of Transportation, Federal Highway Administration, and the Illinois Department of Transportation.

This includes transportation system projects to be undertaken by the City of Bloomington, the Town of Normal, McLean County and the Illinois Department of Transportation, as well as the programmed activities of urban area transit providers, both public transit and that conducted by non-profit transportation and social service agencies.

The metropolitan planning process arises from MCRPC's role as the Metropolitan Planning Organization (MPO) for the Bloomington-Normal urbanized area. An MPO is designated and created when an urbanized area meets or exceeds a population of 50,000 people¹. The combined population of Bloomington and Normal reached that milestone in the 1960s, and pursuant to the federal process, the Governor designated the McLean County Regional Planning Commission for our area in 1967.

Metropolitan planning organizations exist to conduct a continuing, cooperative, and comprehensive (3-C) transportation planning process. The MPO provides a forum for the development of transportation policies and plans. At minimum the planning process must include any transportation project in which federal funding is used; in McLean County, we report on locally funded transportation projects as well, to provide better context regarding the investment made by each level of government. The Transportation Improvement Program is the core document for analyzing the scope and scale of transportation investment in our metropolitan planning area.

MCRPC does not mandate or impose the selection of specific projects to the participating governments and agencies. Each participant develops a program of projects consistent with its goals and financial resources, and adopts it through its budget approval process. That process includes public involvement through publication of proposed budgets and capital investments, public meetings and hearings, and votes to approve the program through legislative bodies or governing boards. MCRPC encourages the MPO participants'

¹ Determinations regarding qualification as an MPO derive from the Decennial Census.

engagement in a continuing dialogue with MCRPC, District 5 staff and one another to develop the most effective regional program possible with the resources available.

The transportation projects thus adopted by local jurisdictions and agencies are brought together in the Transportation Improvement Program. To be included in the TIP, each project listing must have a defined cost for implementation, and identify the sources of funding required to meet that cost. In addition, each jurisdiction is tasked with determining Year-of-Expenditure costs for each project.

This is done to reflect as closely as possible the true cost at the time of implementation, through calculation of anticipated cost changes based on its financial status, assumptions and past experience. These modifications of estimated cost may also consider other factors known to be relevant by the local staff.

The selection process begins in the local jurisdictions, but evaluation of projects *as* elements of the overall transportation improvement program continues through the deliberation of the Transportation Technical and Policy Committees.

Specifically, projects are considered with respect to the contribution they are expected to make to the achievement of the goals, actions and state performance targets adopted by the MCRPC Transportation Policy Committee, or identified in the Metropolitan Long-Range Transportation Plan 2050². The performance metrics defined in the MLRTP 2050 either directly cite or are amended to include the state target once it has been established and adopted by the MPO committees.

Most TIP documents incorporate only those projects which use federal transportation funding, but the metropolitan transportation planning participants in our area elect to include all projects derived from their budget development processes, to provide the public with a complete picture of the levels of local, state and federal funding supporting the maintenance and improvement of the transportation network.

² Pursuant to the following citations:

²³ CFR 450.326 - (c) The TIP shall be designed such that once implemented, it makes progress toward achieving the performance targets established under §450.306(d).

²³ CFR 450.326 - (d) The TIP shall include, to the maximum extent practicable, a description of the anticipated effect of the TIP toward achieving the performance targets identified in the metropolitan transportation plan, linking investment priorities to those performance targets.

Project selection by the Illinois Department of Transportation is managed by the staff of IDOT District 5, which covers an area that includes several metropolitan planning organizations (MPOs) in addition to the McLean County Regional Planning Commission. At the District level, the state program for allocation of federal transportation funding is determined based on factors such as project readiness, matching funding and budget restrictions. Some federal and state funding is allocated through centrally administered IDOT grant programs, such as the Illinois Transportation Enhancement Program through which the state allocates federal funds for transportation alternatives, and the Downstate Operating Assistance program in which state funds are allocated to transit provides in small urban areas and rural regions.

As of the effective date of this TIP, MCRPC has adopted the safety targets promulgated by the Illinois Department of Transportation. The adoption of the state targets has prompted discussion with local staff as well as IDOT and FHWA staff regarding the means by which individual MPOs can be responsive to the intent of the targets, while understanding that the specific numerical or percentage targets statewide do not scale to local circumstances.

For example, where the state might identify a year-to-year reduction of fatalities of 4%, for an MPO where there are few fatal crashes, that percentage reduction is not useful for analysis. If the local annual fatalities equal five individuals, the target reduction equals twotenths of a person. This issue of scalability is further complicated when fatalities or serious injuries result from crashes on roads controlled by the state rather than local jurisdictions. In these cases, the MPO's ability to impact the statewide crash rate or its impact on fatalities or serious injuries is at best very limited.

The McLean County Go:Safe Action Plan recommends programs and projects to pursue in the urbanized area and throughout the county, prioritized through an analysis of measurable safety impacts. The plan is based on the Vision Zero concept³ that deaths and serious injuries caused within the transportation system can and should be prevented. With extensive recommendations for implementation, an implementation process and community guidance are being organized. In 2023, MCRPC was awarded a grant under the federal Safe Streets & Roads For All (SS4A) program, to enhance the Go:Safe Action through inclusion of Federal criteria for such plans, with the new plan expected to be complete within 24 to 30 months.

The TIP projects list beginning on page 11 emphasizes projects with a specific focus on safety for system users. These projects include bridge and culvert repair and

TRANSPORTATION IMPROVEMENT PROGRAM FY 2024-2028

³ This concept has been widely adopted in the United States, and is referred to under several program names. In Illinois, the Driving Zero Fatalities to a Reality is an example. Other organizations and governments refer to Towards Zero Deaths, Road to Zero and other. The Federal Highway Administration offers substantial resources and information tying its Safe Systems approach to Vision Zero implementation.

reconstruction, improvements to street lighting, sidewalk and ADA ramp improvements, and others. This group of projects includes the Uptown Normal project to build a belowgrade plaza with facilities for pedestrians and bicycle users, with free flow under the railroad at Uptown Station. This is a substantial investment in pedestrian and bicycle safety, and will circumvent a majority of the potential at-grade interactions with rail traffic.

The SFY 2024 – 2028 Transportation Improvement Program may also reference the McLean County Local Road Safety Plan (LRSP). The plan provides a statistics-based analysis of crash data, a toolkit of approaches to infrastructure to reduce crash incidence, and an inventory of locations throughout McLean County with very high incidences of crashes that result in fatalities or serious injuries.

Using the information compiled in the LRSP in context with local understanding offers an additional angle of view on the safety challenges in the transportation system. The plan also provides the range of actions comprising the toolkit, either on their own merits or as elements in a local program.

MCRPC Planning Projects

MCRPC is generally the managing agency for regional planning studies and plans. Currently underway or pending are the following;

Bike & Ped (Oct '22 - Sept '23)		
Grant Year		Total
Total Local Contributions	\$	19,325
Grant Award	\$	27,592
Total Funding	\$	46,917
	_	

The IDOT-funded Bike & Ped project focuses on education on safety for pedestrians and bicycle riders. It includes public information activities and materials, and substantial participation by local public safety agencies.

SPR (SFY 2024 - 2026)	
Grant Year	Total
Total Local Contributions	\$ -
Grant Award	\$ 288,000
Total Funding	\$ 288,000

Funded by IDOT with State Planning & Research funds, the Go:Safe McLean County Implementation & Outreach Project will conduct community-wide outreach to advance the implementation of the McLean County Go:Safe Action Plan.

SS4A (SFY 2024 - 2025)	
Grant Year	Total
Total Local Contributions	\$ 183,118
Grant Award	\$ 151,593
Total Funding	\$ 334,711

The federal Safe Streets & Roads For All (SS4A) grant project will update and enhance the adopted Go:Safe Action Plan and incorporate Federal Vision Zerobased standards to qualify for Federal implementation funding.

RAISE (SFY 2024 - 2026)	
Grant Year	Total
Total Local Contributions	\$ 575,000
Grant Award	\$ 100,000
Total Funding	\$ 675,000

The Veterans Parkway Corridor Plan, funded under the federal Rebuilding American Infrastructure with Sustainability and Equity (RAISE) is a major review of Veterans Parkway, prompted by the numerous incidences of

serious crashes at multiple locations. The project will look at safety improvements as well as reconfiguring Veterans Parkway to safely accommodate all modes of traffic. The project will also consider economic, demographic and social equity data to evaluate availability of the resources and opportunities to underserved communities. The plan as anticipated will establish a framework for infrastructure improvements to take the corridor forward to serve the entire community.

East Side Highway Monitoring Plan

The Transportation Improvement Program does not currently include a funded project related to the East Side Highway studies conducted earlier in the last decade, and MCRPC has been advised that the Illinois Department of Transportation is not expected to move forward with the project.

This page intentionally left blank.

Managing Amendments and Administrative Modifications

Procedures

Once adopted, the TIP requires ongoing maintenance as projects develop throughout the fiscal year. The TIP amendment process helps to balance the need to keep projects on schedule, while still providing fiscal constraint and a public input process. This section of the annual TIP establishes the procedures MCRPC staff and member agencies use in revising the MCRPC TIP.

The procedures described in this document for amending the multiyear TIP have been agreed upon by MCRPC member agencies through approval of the TIP document, and are consistent with federal transportation planning regulation and legislation. The procedures are meant to accommodate complex project changes or additions, as well as permitting a simplified procedure for smaller administrative changes. The process may be changed at the discretion of the Technical and Policy committees pursuant to applicable regulations.

Background

Titles 23 and 49 of the United States Code require that every MPO produce a multi-year TIP that includes all projects which seek federal funding and other regionally significant transportation projects. The MCRPC TIP is updated annually and covers a five-year period. The Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) will only approve projects and grants for projects that are programmed into the current approved TIP. During a given fiscal year, MCRPC staff may amend the current TIP document to include new projects not originally programmed into a fiscal year. These revisions must maintain year-to-year fiscal constraint for the five years of the TIP. The project added to the TIP by amendment must also be in conformity with the approved urbanized area Long Range Transportation Plan.

Federal Transportation Planning Regulations in Title 23 provide the MPO with the discretion to create and approve alternative procedures to more effectively manage actions on the TIP that may occur during a given fiscal year. The regulations require the approval of any alternative procedures developed by the MPO, and that these procedures are documented in the annual TIP. This document lists the procedures for the MCRPC urbanized area regulating TIP amendments and administrative modifications that will be used to revise the TIP in accordance with federal regulations. There are two primary types of changes that can be made to the TIP: Administrative Modifications and Amendments. The policies and procedures for each process are outlined below.

Administrative Modification

An Administrative Modification is a TIP revision consisting of minor changes to project scope or phase costs, minor changes in project funding sources, minor changes to a project description, and the movement of an included project among fiscal years. An Administrative Modification is a revision that does not require public input, confirmation of fiscal constraint, or a formal approval by the Technical and Policy Committees. The following thresholds were established to determine whether an Administrative Modification is possible for a submitted TIP revision:

Modification of a TIP project description, as long as the modification does not significantly change the project's intended function, nature, costs or environmental impact.

TIP Project Year of Expenditure federal aid cost changes that do not cause a change in funds allocated by the participating federal agencies exceeding the following thresholds for the Total TIP Project Cost (which may not be the same as the total project cost). The chart below sets out the range of project costs and the percentage change in funding below which an administrative modification is appropriate. Increases or decreases in federal or state funding or in local matches as long as the total cost meets the cost change limits.

Changes in federal project funding sources that do not alter the total federal project cost.

Changes in state and local funding sources that do not alter the fiscal constraint of the project.

Moving a project from future years of the TIP to the current fiscal year, or vice versa, as long as the project was in the originally approved TIP or was included through the TIP amendment process.

A split or combination of individually listed projects; as long as cost, schedule, and scope remain unchanged. The addition or deletion of project phases from a TIP Project as long as the funding amounts for the new line items stay within the cost change limits and the new line item does not result in a significant change to the original intent of the TIP Project.⁴

Administrative Modification Cost Change Limits

Total TIP Project Cost	Percent Change in Total TIP Project Cost
\$0 - \$249,999	25%
\$250,000 - \$999,999	20%
\$1,000,000 - \$2,999,999	15%
\$3,000,000+	10% (capped at \$5 million)

⁴ If an approved TIP Project is listed without a right-of-way phase (ROW), and an incidental ROW need is discovered during the design phase, a ROW purchase can be authorized under either the design or construction phase without amending the TIP. "Incidental" ROW is the purchase of a minor parcel(s) (including utility relocation) that does not involve the taking of any environmentally sensitive land or residential/commercial structure.

Any agency requesting an Administrative Modification to a TIP Project or project phase must submit a description of the proposed changes to MCRPC staff including:

- Scope
- A project/projects phase description
- Cost changes, including cost by agency if more than one agency is involved
- Fund type

MPO-approved Administrative Modifications will be published online separately from TIP amendments. Staff will provide a summary of modifications made at the next Technical and Policy meetings following the administrative modification. Administrative Modifications will be forwarded to any agency involved with the modification and to IDOT.

Amendments

A TIP Amendment refers to any major change to a TIP project, of sufficient scope that there must be an amendment. These may include the addition or deletion of a project, a major change in project cost, or a major change in design concept or project scope (e.g., changing project termini). The movement of a project from the Illustrative Table to a fiscal year in the TIP will require a TIP Amendment; however, changes to projects in the Illustrative Table will remain an Administrative Modification. A TIP Amendment requires a public meeting to confirm continued fiscal constraint and provide the public with the opportunity to provide input. The following changes will be considered grounds for a TIP Amendment:

- 1. Addition or deletion of a project (regardless of cost, except for project phases that are in accordance with the Administrative Modification thresholds).
- 2. Addition or deletion of a new project phase that is beyond the thresholds set for Administrative Modification.
- 3. Major changes to the project scope.
- 4. Major changes to the amount of federal aid funding for project costs exceeding the thresholds set for Administrative Modification.
- 5. Addition of a ROW phase that includes the taking of environmentally sensitive lands or residential/commercial structures.

Any agency requesting a TIP Amendment must submit a detailed description of the proposed changes to MCRPC staff including:

- A full project/projects phase description including termini or project location
- Cost changes, including costs by agency if more than one is involved
- Fund type
- Project completion status
- Lead agency and any other agencies involved

TIP Amendments are subject to the approval of the MCRPC Technical and Policy Committees. During these meetings, the public will have the opportunity to comment on the proposed amendment(s). Once approved, the amendments will be forwarded to IDOT. As with Administrative Modifications, any TIP Amendment will be posted online under a separate heading for amendments.

On rare occasions a participating agency may discover that a pending project requires an amendment before the next scheduled transportation committee meetings. In these instances, MCRPC staff will make every effort to accommodate these circumstances while adhering to the requirements of MPO procedures and the Illinois Open Meetings Act.

TRANSPORTATION IMPROVEMENT PROGRAM FISCAL YEARS 2024- 2028

Transit Projects for the Bloomington-Normal Urbanized Area & McLean County

Transit Program Activities

The Bloomington-Normal urbanized area is served by two public transit providers and several agencies and institutions that provide transportation services to program recipients and/or the general public. There is continuing cooperation between the public providers and the agencies, with many of the latter relying on the public transit agencies to supplement their transportation resources. Much of this coordination originates or is facilitated through the MCRPC Transportation Advisory Committee (TAC), a group focused on coordination between public transit, social service agencies with transportation programs and advocacy agencies representing groups with specific transportation needs.

The public providers are Connect Transit in the Bloomington-Normal urban area, and SHOW BUS for rural public transit. Because the Connect Transit charter as currently applied limits the system to service only within the incorporated areas of Bloomington and Normal, there are areas within the MPA in which SHOW BUS can provide service. These agencies are in an ongoing conversation regarding opportunities to improve services through coordination and cooperation.

Occasionally non-profit program providers elect to rely on the public transit agencies to operate their transportation programs, which in some instances they must provide under contract terms with state or federal funders.

In an early example of this cooperation, the YWCA of McLean County used IDOT vehicles in its Job Access-Reverse Commute (JARC) program. The YWCA then assumed the operation of a private sector non-emergency medical transport program called Medivan, and received one of the first New Freedom grants awarded in Illinois. When the individual section 5310 programs were consolidated, IDOT elected to focus the available funding on the Consolidated Vehicle Purchase program, and to end funding for operations. For the YWCA, this led to several years of running Medivan at a loss, circumstances which became unsustainable. The operation of the program was turned over to Connect Transit, and is now managed through Connect Mobility. This transition created a fiscal challenge for Connect Mobility, and led to limitations on the fixed route system to balance the impact.

Reports on the current programs and budgets of participating transportation providers follow.

SHOW BUS Rural Public Transportation

SHOW BUS offers general public transportation to persons of all ages and income levels in rural and small urban areas in six central Illinois counties: DeWitt, Ford, Iroquois, Livingston, Macon and McLean, under the aegis of McLean County as the funding grantee. For FY 2022, SHOW BUS had 56,643 passenger boardings in McLean County, less than half of the pre-pandemic ridership.

Core Service Area

County Served	Area in Square Miles	Population*
DeWitt	398	15,516
Ford	486	13,534
Iroquois	1,117	27,077
Kankakee (pop rural only)	676	30,535
Livingston	1,044	35,815
Macon (pop rural only)	581	17,711

^{*}updated to 2020 Census results for counties.

Services Provided Outside the Core Service Area

SHOW BUS has taken on extensive service commitments beyond the core service area. Under separate contract, SHOW BUS provides rural service in Kankakee County. Ford, Iroquois, Kankakee, Livingston and McLean counties combine to form the rural HSTP Region 6, for which SHOW BUS is the sole public rural provider. SHOW BUS also provides service in Logan and Mason counties, creating a nine-county service area that extends from the Indiana state line in Kankakee County to the Illinois River at Havana, spanning 170 miles and crossing nearly three-quarters of Central Illinois. The SHOW BUS service area includes three of the four largest counties in Illinois by land area.

COVID-19 Impacts

SHOW BUS has continued to be adversely affected by the pandemic, both in terms of ridership access and in program changes to accommodate COVID restrictions. Significant limitations in vehicle capacities were imposed by the requirements for social distancing. Until the Centers for Disease Control (CDC) guidance for mask use was reinforced by the legal mandate, compliance by riders was limited, although SHOW BUS

made masks available for all riders. The intensive vehicle cleaning protocols instituted required that they be carried out by a single employee who was trained in the use of the toxic materials needed. However, SHOW BUS adapted to COVID by launching new services, including the delivery of meals for COVID-bound recipients; this program variation ended in February 2022. SHOW BUS continues to widen services as partner agencies open and reestablish their rural transportation needs, and as the general public increases transit use.

Project History and Milestones

SHOW BUS participates in McLean County's Transportation Advisory Committee which meets monthly and includes representatives from the following entities, some of which may receive Federal assistance for passenger transportation: Bloomington-Normal Connect Transit, Illinois Department of Human Services (IDHS), Life Center for Independent Living (LIFE-CIL), Marcfirst, Faith in Action, McLean County Regional Planning Commission (MCRPC) and the East Central Illinois Area Agency on Aging (ECIAAA). The committee explores transportation needs, emphasizing coordination of services and review of any transportation gaps.

Since 2009, SHOW BUS has played a central role on the Region 6 HSTP Joint Committee, leading the regional effort supporting rural public transit and the thoughtful coordination of rural and urban public transit services.

Operating funds have come from the Illinois Department of Transportation (Section 5311 of the Federal Transit Act, as amended, and the Downstate Operating Assistance Program), East Central Illinois Area Agency on Aging (Older Americans Act funds in part), units of local government, churches, civic groups, businesses, individuals and passenger donations, fees and contracts. Capital funds come from Section 5311, Section 5310 and private sources.

Since 2001, SHOW BUS has participated in the Administration of Aging Model State Performance Outcomes Measurement System Project, and uses project results in its planning strategy. Participation has included rider surveys.

From 2001 to 2006, SHOW BUS participated in the Administration on Aging's Model State Performance Outcomes Measurement System Project (POMP). The project studied client satisfaction and needs over a broad spectrum of services. SHOW BUS, as a participant, received annual reports summarizing client comments and findings. The results became part of the planning strategy for SHOW BUS.

In January, 2007, with the technical assistance of IRTAC, SHOW BUS began a system wide survey of transportation needs. Over 700 surveys were sent to social service agencies, transportation providers, medical providers, churches and governmental agencies. A

second wave of surveys involved community riders. In March of 2008, public meetings were held in communities in the Ford, Iroquois, Livingston and McLean Counties with populations over 1,500. Some of those meetings resulted in further interest in the county-based transportation committees. As mentioned previously, planning in DeWitt County and Macon County followed the "ICCT" process as implemented by IRTAC.

As noted in various sections of the FY 2020 application for §5311 funding:

"SHOW BUS also participates in the United Way of McLean County's Executive Council, which is made up of executives from thirty area social service agencies, some of which may receive Federal transportation assistance for passenger transportation."

"In Livingston County, SHOW BUS participates in a Transportation Committee hosted by LIFE-CIL and Futures. The committee has similar aims as McLean County's Transportation Advisory Council and involves representatives from the local hospital (St. James), Livingston County Public Health Department, LIFE-CIL, Futures and Mosaic (two entities serving individuals with disabilities), Institute for Human Resources (a mental health center), local taxi services and local governmental representatives. Some of these entities may receive Federal assistance for passenger transportation."

"In DeWitt County, SHOW BUS participates in a monthly meeting of representatives from local social service agencies and other interested partners to share information and to coordinate service efforts. Participating entities include Friendship Senior Center, University of Illinois Extension, DeWitt County Human Resource Center (serving individuals with disabilities), Faith in Action, DeWitt County Housing Authority, Community Action, Liberty Village and Farmer City Rehab (both nursing homes) and United Way. Some of these entities may receive Federal assistance for passenger transportation."

"In Ford County, the Ford County Network Panel involving such entities as Ford County Public Health Department, Community Resources and Counseling Center, local school and governmental officials holds monthly meetings to review transportation needs. Some of these entities may receive Federal assistance for passenger transportation."

"In Iroquois County, the Iroquois County Transportation Committee, made up of social service agencies such as the Iroquois County Public Health Department, Iroquois Mental Health Center, Options, Catholic Charities and the Watseka Senior Center, the Iroquois Memorial Hospital and governmental entities, has been holding monthly meetings since May, 2009. Some of these entities may receive Federal assistance for passenger transportation."

"In Macon County, SHOW BUS actively participated in the "ICCT" process. With the initiation of service in June, 2012, the Macon County Board established a transportation

committee. Until April, 2015, it met on a monthly basis; it now meets on a quarterly basis and includes participants from SAIL and Macon Resources (serving those individuals with disabilities), "DMCOC" (serving seniors), various school entities and Macon County officials. Some of these entities may receive Federal assistance for passenger transportation.

"SHOW BUS has been active in Regions Six and Eight of the Illinois Human Services Transportation regions (HSTP), with the SHOW BUS Director acting as Chair of the Technical Committee in Region Six."

"SHOW BUS also participates in transportation related organizations that encompass areas wider than the six-county area, and the additional three counties it serves. They include Illinois Public Transportation Association (IPTA), and Illinois Rural Transit Assistance Center (IRTAC).

"SHOW BUS is included in McLean County's TIP annually. As indicated above, SHOW BUS participates in various transportation related organizations that are all open to public participation. Through county-based transportation committees, information is funneled to the HSTPs 6 and 8 in order to be included in those plans. In addition, SHOW BUS has maintained relationships with various county boards and township, village and city officials in the relevant counties."

"This service is made available in DeWitt, Ford, Iroquois, Livingston, Logan, Macon, Mason & McLean Counties by funding through the Illinois Department of Transportation (Sec. 5309, 5310, 5311 & 5339 of the Federal Transit Act, as amended), the Downstate Operating Assistance Program and the following: United Way and community funds, units of local government, churches, civic groups, businesses, individuals and passenger donations, fees and contracts."

								241,999	1,331,000	41 peak

SHOW BUS participates in the McLean County Regional Planning Commission Transportation Advisory Committee (TAC). The TAC meets monthly/quarterly and includes representatives from the following entities, some of which may receive Federal assistance for passenger transportation: Bloomington-Normal's Connect Transit, Life Center for Independent Living (LIFE-CIL), Homes of Hope, Marcfirst, Faith in Action, McLean County Regional Planning Commission and the East Central Illinois Area Agency on Aging (ECIAAA). The council explores transportation needs, emphasizing coordination of services and review of any transportation gaps.

SHOW BUS also participates in the United Way of McLean County's Executive Council, which is made up of executives from thirty area social service agencies, some of which may receive Federal transportation assistance for passenger transportation.

In Livingston County, SHOW BUS participates in a Transportation Committee hosted by LIFE-CIL and Futures. The committee has similar aims as McLean County's Transportation Advisory Committee and involves representatives from the local hospital (St. James), Livingston County Public Health Department, LIFE-CIL, Futures and Mosaic (two entities serving individuals with disabilities), Institute for Human Resources (a mental health center), local taxi services and local governmental representatives. Some of these entities may receive Federal assistance for passenger transportation.

In DeWitt County, SHOW BUS participates in a monthly meeting of representatives from local social service agencies and other interested partners to share information and to coordinate service efforts. Participating entities include Friendship Senior Center, University of Illinois Extension, DeWitt County Human Resource Center (serving individuals with disabilities), Faith in Action, DeWitt County Housing Authority, Community Action, Liberty Village and Farmer City Rehab (both nursing homes) and United Way. Some of these entities may receive Federal assistance for passenger transportation.

In Ford County, the Ford County Network Panel involving such entities as Ford County Public Health Department, Community Resources and Counseling Center, local school and governmental officials holds monthly meetings to review transportation needs. Some of these entities may receive Federal assistance for passenger transportation. In Iroquois County, the Iroquois County Transportation Committee, made up of such social service agencies as Iroquois County Public Health Department, Iroquois Mental Health Center, Options, Catholic Charities and the Watseka Senior Center, the Iroquois Memorial Hospital and governmental entities, has been holding monthly meetings since May, 2009.

Some of these entities may receive Federal assistance for passenger transportation. In Macon County, SHOW BUS actively participated in the "ICCT" process. With the initiation of service in June, 2012, the Macon County Board established a transportation

committee. Until April, 2015, it met on a monthly basis; it now meets on a quarterly basis and includes participants from SAIL and Macon Resources (serving those individuals with disabilities), "DMCOC" (serving seniors), various school entities and Macon County officials. Some of these entities may receive Federal assistance for passenger transportation.

SHOW BUS has been active in the Region Six and Region Eight Human Services Transportation Plan (HSTP), with the SHOW BUS Director acting as Chair of the Technical Committee in Region Six.

SHOW BUS also participates in transportation related organizations that encompass areas wider than the six-county area, and including the three additional counites in which SHOW BUS provides. They include Illinois Public Transportation Association (IPTA), and Illinois Rural Transit Assistance Center (IRTAC).

Section 5310 Transportation Providers Public and Social Service Transit Programs

The Bloomington-Normal urbanized area is served by two public transit providers and several agencies and institutions that provide transportation services to their program recipients and/or the general public. There is continuing cooperation between the public providers and the agencies, with many of the latter relying on the public transit agencies to supplement their transportation resources. Much of this coordination originates or is facilitated through the MCRPC Transportation Advisory Committee, an advisory committee to the Commission focused on coordination between public transit, social service agencies with transportation programs and advocacy agencies representing groups with specific transportation needs.

The public providers are Connect Transit in the urban area, and SHOW BUS in rural public transit. Because the Connect Transit charter limits it to service only within the incorporated areas of Bloomington and Normal, there are areas within the metropolitan planning area in which SHOW BUS can provide service. The public transit agencies engage in ongoing conversations regarding opportunities to improve services through coordination and cooperation.

Occasionally non-profit program providers elect to rely on the public transit agencies to operate their transportation programs, which in some instances they must provide under contract terms with state or federal funders. As an example, the Advocate BroMenn Adult Day program, which had been using IDOT-sourced vehicles to operate its program in conjunction with Connect Transit paratransit, in recent years contracted with SHOW BUS to operate its program. This allowed the program to expand its catchment area throughout McLean County and expanded the number of clients it can serve.

When this relationship was initiated, IDOT vehicles awarded to Advocate were made available to SHOW BUS to facilitate program delivery. With the acquisition of BroMenn by Carle Health in 2020, and the COVID-related suspension of the BroMenn Adult Day Services, this relationship was also suspended.

When Congress decided that the various section 5310 programs should be consolidated, it created a funding gap for some non-profit service agencies in managing transportation programs. Although many of the activities previously funded under individual program remained eligible for funding under the simplified 5310 organization, they were not required to be implemented. IDOT elected to focus all 5310 funding on the Consolidated Vehicle Purchase program, and to end funding for operations. Although the ongoing availability of new and reliable vehicles has been central to improving service and safety

standards, agencies have found that they cannot meet vehicle operating costs in a sustainable fashion, and have moved away from offering transportation services directly. The Consolidated Vehicle Purchase program has offered some agencies to test the suitability of newer design options, particularly for transportation for persons with disabilities or mobility constraints that

Several non-profit agencies in the community operate transportation programs, some using 5310-funded vehicles. Although past 5310 recipient agencies have provided services to the public as well as agency clients, that arrangement is now less common. For the most part, these agencies focus their attention on providing transportation resources to their agency clients,

Faith in Action

Although Faith in Action is funded entirely through community donations and support, and thus is not an applicant for or recipient of federal or IDOT transportation funding, this volunteer-based transportation service for seniors is an important voice on the Transportation Advisory Committee. Faith in Action describes its mission as an "organization that provides spiritual, physical, and emotional support to seniors 60 years and over and their caregivers to maintain independence, dignity, and improved quality of life. We accomplish this through an interfaith network of volunteers, congregations, and community organizations."

Faith in Action uses volunteer drivers using their own vehicles to provide transportation for seniors.

Homes of Hope

Homes of Hope provides supportive living for adults with developmental disabilities, in homes in residential settings housing three to six persons. The program includes transportation for residents, assists with employment, access to social service resources, and a multi-faceted program for improved health, exercise and healthy foods. Homes of Hope has been granted three vehicles from the IDOT Consolidated Vehicle Purchase Program, providing greater mobility for residents.

Marcfirst

Since 1955, Marcfirst has been connecting people with developmental disabilities to their community through a lifetime of meaningful supports. Services currently provided include early intervention and pediatric therapy programs for children with developmental disabilities and delays. High school students with disabilities are given the opportunity to participate in our transition program. For adults, residential, developmental training and supported employment services are provided. Each year, Marcfirst supports over 700

children and adults in McLean County. The transportation services we provide play a vital role in achieving our mission. For many of the adults supported, independent use of public transportation is not an option due to physical and/or intellectual disabilities. Our fleet of vehicles gives individuals with disabilities opportunities to access their community for work, education, medical services and recreation locally and throughout the State.

Appendix 1

APPENDIX 1 Title VI Compliance Complaint Form for Discrimination Claim

The Transportation Policy Committee has approved the form on pages A-3 through A-5 below for the reporting of discrimination claims to MCRPC. The Policy Committee and the McLean County Regional Planning Commission are dedicated to open access to MCRPC for all.

With future action on the Title VI Plan, this form may be revised. New information and forms will be amended into the TIP appendix, and available on the MCRPC website.

Civil Rights Complaint Form

McLean County Regional Planning Commission 115 East Washington Street, Suite M-103 Bloomington, Illinois, 61701

Please contact our office should you need assistance with submitting your complaint.

The McLean County Regional Planning Commission (MCRPC) is committed to ensuring that no person is excluded from participation in or denied the benefit of services it provides on the basis of race, color, or national origin, as provided by Title VI of the Civil Rights Act of 1964, as amended, and related federal legislation.

Complaints must be filed within 180 days from the date of the alleged discrimination by MCRPC. To file a complaint this completed form must be returned to the McLean County Regional Planning Commission, 115 East Washington Street, Suite M-103, Bloomington, Illinois, 61701. **Faxed or e-mailed forms are not accepted.** Hand delivery is recommended to ensure that the complaint is received and filed within the statutory deadline. Delivery services providing delivery confirmation are also acceptable.

FEDERAL TRANSPORTATION FUNDING HISTORY

As noted in the individual project descriptions in the TIP report, historically Bloomington, Normal and McLean County have relied on the use of Federal transportation funding for major local projects. This information is updated periodically.

APPENDIX 3

MCRPC Transportation Planning and Programming Process Location: http://www.mcplan.org

Following are the primary work products of the MCRPC transportation planning program. Current documents are available for review at www.mcplan.org.

1. Unified Work Program (UWP)

MPO tasks and products are clearly outlined including sufficient detail of who will perform transportation work, the schedule for completing work, the resulting products, proposed funding and a summary of the total amounts of federal and matching funds. Updated annually. Title: Unified Work Program FY 2024, July 1, 2023 – June 30, 2024. Date Approval Anticipated: June 23, 2023

2. Metropolitan Long-Range Transportation Plan 2050 (MLRTP 2050)

Details how the urbanized area transportation system will evolve over the next 25 years. The current MLRTP covers the Bloomington-Normal urbanized area as delineated by the 2010 U.S. Census and considers a 25-year Metropolitan Planning Area (MPA), which encompasses land outside the urbanized area that is likely to be included in the urbanized area between the years 2015 and 2045. The MLRTP looks at the projected evolution of pedestrian, bicycle, bus transit, automobile, rail, and air travel over the next 25 years, addresses the federal planning factors, is financially constrained, and includes funding for maintenance and operation of the transportation system. This planning process includes all relevant stakeholders including, but not limited to, the general public, environmental, state, other transportation, historical, local land use and economic development agencies. Available for 45-day public comment period before approval. Updated every five (5) years. Title: Metropolitan Long-Range Transportation Plan 2050 Date Approved: October 31, 2022.

3. Transportation Improvement Program (TIP)

Documentation of proposed projects for a five-year fiscal period so that project funding can be secured. Any local project that solicits federal or state monies must be in the TIP in order to be considered for such funding. The TIP is consistent with the LRTP, financially constrained, and developed cooperatively with member agencies including state and local transit operators. Submitted to IDOT for adoption along with self-certification. Available for 30-day public comment period before approval. Updated every year.

Title: Transportation Improvement Program FY 2024-2028 Date Approval Anticipated: June 23, 2023

4. Title VI Plan

Documents procedures to address complaints related to Title VI of the Civil Rights Act of 1964, American Disabilities Act, and related statutes in compliance with federal regulation. This includes the identification of low-income and minority populations within the planning area to consider effects of the MPO planning process. Available for 45-day public comment period before approval. Updated every five (5) years.

Title: MCRPC Title VI Plan

Date Approved: September 21, 2018

The Title VI Plan will be updated in FY 2024. It will be re-titled as the MCRPC Civil Rights Plan, to address the civil rights of all disadvantaged and protected populations. The update will have the benefit of the 2020 Census data and recent American Community Survey data, as well as updated local information, and will incorporate updates to the Public Participation Plan and the Limited English Proficiency Assistance Plan.

The Title VI Plan incorporates:

Limited English Proficiency Assistance Plan (LEPP)

Documents how the MPO engages members of the public who experience difficulties in speaking or writing in English, or understanding written or verbal communications in English. The plan focuses on partnerships and outreach techniques and best practices for involving LEP persons in all phases of transportation planning. Available for 30-day public comment period before approval. Periodically reviewed and updated in consultation.

Title: MCRPC Transportation Access Language Assistance Plan

6. Public Participation Plan (PPP)

Documents how the MPO involves the public in different transportation planning processes and what staff undertake to gather, process, and utilize public input when creating plans and how to consider the needs of the traditionally underserved, such as low-income and minority households. Available for 30-day public comment period before approval. Periodically reviewed and updated.

The Public Participation Plan

Title: MCRPC Public Participation Plan

Date Anticipated: March 2024

7. Federally Obligated Projects

Listing of obligated transportation projects for which federal funds have been given in the preceding year, including bicycle and pedestrian projects. Updated every year.

Title: Annual Listing of Federally Obligated Projects, Federal Fiscal Year 2018

Date Approved: September 21, 2018

Title: Annual Listing of Federally Obligated Projects, Federal Fiscal Year 2019

Date Approved: September 27, 2019

Title: Annual Listing of Federally Obligated Projects, Federal Fiscal Year 2020

Date Approved: September 25, 2020

Title: Annual Listing of Federally Obligated Projects, Federal Fiscal Year 2021

Date Approved: September 24, 2021

Title: Annual Listing of Federally Obligated Projects, Federal Fiscal Year 2022

Date Approved: September 23, 2022

Title: Annual Listing of Federally Obligated Projects, Federal Fiscal Year 2023

Date Anticipated: September 2023

8. MPO Self-Certification – to be renewed June 23, 2023

From the Code of Federal Regulations (CFR) 450.334 Self-certifications and Federal certifications: For all MPAs, concurrent with the submittal of the entire proposed TIP to the FHWA and the FTA as part of the STIP approval, the State and the MPO shall certify at least every four years (annually at MCRPC) that the metropolitan transportation planning process is being carried out in accordance with all applicable requirements including:

Highway and Public Transportation

23 U.S.C. 134 - Highways, Sec. 134. Metropolitan Planning

This section describes the legal framework for metropolitan planning areas (MPAs) and the conduct of the metropolitan transportation planning processes, development of transportation plans, programs, and activities to encourage and promote the safe and efficient management, operation and development of transportation systems.

49 U.S.C. 53 – Public Transportation, Sec. 5303. Metropolitan Transportation Planning This section provides the legal framework to encourage and promote the safe and efficient management, operation, and development of surface transportation systems that will serve the mobility needs of people and freight and foster economic growth and development within and between States and urbanized areas. This section also encourages the continued improvement and evolution of the metropolitan and statewide transportation planning processes.

23 CFR part 450.334 (a), Self-certifications and Federal certifications

Regulations to ensure the State and MPAs certify at least every four years that the metropolitan planning process is being carried out in accordance with all applicable requirements.

Clean Air Act and Related Regulation

Clean Air Act (CAA)

The law that defines the Environmental Protection Agency's responsibilities for protecting and improving the nation's air quality and the stratospheric ozone layer. The last major change in the law, as amended by the Clean Air Act Amendments of 1990, was enacted by Congress in 1990.

40 CFR part 93 – Determining Conformity of Federal Action State or Federal Implementation Plans

This section sets forth policy, criteria, and procedures for demonstrating and assuring conformity of such activities to an applicable implementation plan developed pursuant to the CAA. This section also provides procedures for air quality nonattainment and maintenance to implement requirements with respect to the conformity of transportation plans, programs, and projects which are developed, funded, or approved by the United States Department of Transportation (USDOT), and by MPOs or other recipients of highway or transit funds.

Civil Rights Legislation and Regulation

"No person in the United States shall, on the ground of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance."

- Title VI of the Civil Rights Act of 1964 outlawed discrimination in the conduct of all federal activities. Subsequent laws and Presidential Orders added handicap, sex, age, and income status to the criteria for which discrimination is prohibited.
- Executive Order 12898 directs Federal agencies to make Environmental Justice part of their missions by identifying and addressing disproportionately high and adverse human health or environmental effects of their programs, policies, and activities on minority and low-income populations.
- Executive Order 13166 requires Federal agencies to examine the services they provide, identify any need for services to those with limited English proficiency (LEP), and develop and implement a system to provide those services so LEP persons can have meaningful access to them. Federal agencies are required to ensure that recipients of Federal financial assistance provide meaningful access to LEP applicants and beneficiaries.

49 USC 5332

This section states a person may not be excluded from participating in, denied a benefit of, or discriminated against under, a project, program, or activity receiving financial assistance under this chapter because of race, color, religion, national origin, sex, disability, or age.

Federal-Aid Highway Act, 23 CFR part 230

This section provides regulatory standards for the implementation of an equal employment opportunity program on federal and federal-aid highway construction contracts.

Fixing America's Surface Transportation (FAST) Act, Section 1101 (b) of Pub. L. 112-141 and 49 CFR Part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects.

The Americans with Disabilities Act (ADA) of 1990 (42 U.S.C. 12101 et seq)

This act prohibits discrimination against people with disabilities in employment, transportation, public accommodation, communications, and governmental activities. It prohibits the discrimination on the basis of disability by public accommodations and in commercial facilities. The following regulations refer to non-discrimination and its applicability in transportation:

- 49 CFR part 27 specifies nondiscrimination on the basis of disability in programs or activities receiving federal financial assistance;
- 49 CFR part 37 covers transportation services for individuals with disabilities; and
- 49 CFR part 38 covers ADA accessibility specifications for transportation vehicles.

The Older Americans Act, as amended (42 USC 6101)

This act prohibits discrimination on the basis of age in programs or activities receiving federal financial assistance.

23 USC 324

This section prohibits discrimination based on gender.

Rehabilitation Act of 1973 (29 USC 794, §504) and 49 CFR part 27

This section prohibits discrimination against individuals with disabilities.

APPENDIX 4

Keeping the TIP Current

Amendments

MCRPC has adopted a process for the management of revisions made to the TIP in the course of its first fiscal year, to accurately and promptly reflect changes in project scope and funding. The defining concepts are discussed on pages 7 through 10 of this report. Generally, substantive alterations in a project consisting of changes in project area or the nature of work to be done, or changes to the amount and/or sources of funding will be incorporated through the amendment process. Amendments require a vote by the Technical Committee to forward the alteration to the Policy Committee for action.

As noted above, in situations where an amendment must be made within a limited amount of time, MCRPC staff will make every reasonable effort to accommodate the agency.

Amendments are posted to the MCRPC TIP page upon approval by the Policy Committee.

Administrative Modifications

Administrative modifications to the TIP are published on the MCRPC website, www.mcplan.org.

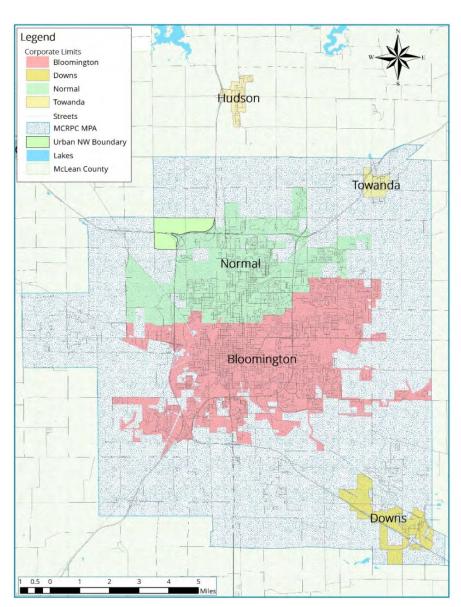

Advance Construction Projects and Status Modifications, pursuant to IDOT Advanced Construction Notifications (See also Appendix 6)

During the course of the first fiscal year for which Transportation Improvement Program is approved, any changes in advanced construction status for projects included in the TIP will be added to an updated version of this Appendix, reflecting administrative modifications made to the current TIP pursuant to status changes made by the Illinois Department of Transportation Office of Planning and Programming. Use the link above to access the web page listing, or contact Transportation Planner Jennifer Sicks by email at jsicks@mcplan.org, or by telephone at 309-828-4331.

APPENDIX 5

Metropolitan Planning Area (MPA) Boundary

In compliance with the provisions of the Fixing America's Surface Transportation Act (FAST Act), and later legislation supplanting it, the McLean County Regional Planning Commission Transportation Technical and Policy Committees adopted the Metropolitan Planning Area Boundary based on Census 2000. The McLean County Regional Planning Commission Transportation Technical and Policy Committees in FY 2013 proposed a revised Metropolitan Planning Area Boundary. The boundary was further revised based on Census 2010, and a minor

expansion made to include neighborhoods along Illinois Route 9 west of Bloomington. The map illustrates the revised boundaries of the planning area for which the Metropolitan Planning Organization has responsibility for transportation planning, pursuant to the provisions of current federal transportation planning legislation. The planning area is approximate 143 square miles in area, or 12% of the County's total area. Municipal areas within the planning area include the City of Bloomington, the Town of Normal, and the Villages of Downs and Towanda.

A revision to the metropolitan planning area is anticipated following the Census 2020 determination of the Bloomington-Normal urbanized area.

Delineation of metropolitan planning boundary:

- Beginning at the intersection of 1200 E Road (County Highway 39, Ropp Road) and 2000 N Road, the boundary extends east 9.35 miles along 2000N Rd to the intersection of 2000 N and 2100 E
- At this point the boundary runs south along 2100E 1 mile to 1900 N Rd (County Highway 14) and continues 1.5 miles along the section line to the intersection of 2100E and 1750N.
- From this point, the boundary continues south 5.5 miles to 1200N (County Highway 28; Ireland Grove Road), and extends 4.35 miles further south from 1200N to US. 150
- The boundary then runs .3 mile southeast along U.S. 150, to the eastern edge of Parcel I.D. No. 29-03-100-006; from this point the boundary runs south 1.08 miles from U.S. 150 to 650N
- The boundary then runs west 2.25 miles along and beyond 650N to 1900E (County Highway 29; Towanda-Barnes Road)
- At 1900E the boundary runs north .5 mile to 700N (County Highway 36)
- From the intersection of 1900E and 700N, the boundary runs west 5.5 miles along 700N to its intersection with 1375E
- From the intersection of 700N and 1375E the boundary runs 1.09 miles north to the southern boundary of Bloomington township
- From that point the boundary runs 3.85 miles west; it then runs 4.04 miles north to Six Points Road
- From Six Points Road the boundary continues north along 1000E to West Washington Street
- The boundary extends west along Washington Street to County Highway 43, Covell Road
- The boundary continues north along County Highway 43 to a point 150 feet north of 1650 N.
 - And continues east to 975E
- On 975E the boundary runs north for 3.39 miles to Northtown Road. On Northtown Road the boundary runs east 2.47 miles to 1200E Road.
- On 1200E Rd (County Highway 39, Ropp Road), the boundary continues north for 2.05 miles to 2000N Road.

APPENDIX 6 Advance Construction Funding

The state may also take advantage of Advance Construction (AC), a cash flow tool (not additional funding) used by IDOT that allows the preservation of a project's federal eligibility and quickly obligate federal obligation limitation ceiling as additional ceiling becomes available. Projects that are "ACed" (i.e., that employ the advance construction tool) are all eligible for federal reimbursement (after being converted) and are authorized by FHWA in the same manner as all federally funded projects. (Note – as in regular federally funded projects, no work may begin before FHWA authorizes the AC action on a project.) When a project is ACed, IDOT essentially fronts the funds and does not seek federal reimbursement until a later date (after conversion). If a locally sponsored project is ACed, the project sponsor does not notice any difference from a regular federally funded project.

Projects are ACed for a number of reasons:

<u>Insufficient Obligation Limitation</u>. At the time project authorization is being sought from FHWA, there are more projects eligible for federal funding than the amount of obligation limitation IDOT has available;

<u>Insufficient Apportionment</u>. At the time project authorization is being sought from FHWA, there are more projects eligible for a given federal fund type (NHPP, STP, etc.) than the amount of unobligated apportionments for that fund type;

<u>Discretionary Funds Allocation.</u> On rare occasions a project is put on AC status when an allocation of funds from a discretionary program has not occurred, but it is certain will occur. In this case, the project remains in AC status only until the allocation occurs, generally a short amount of time.

Ordinarily, the first two events tend to happen closer to the end of the federal fiscal year. Essentially, individual projects are ACed because of timing issues.

Taking a project off AC status is known as an AC Conversion in the process language of the Federal Highway Administration. This requires a combination of obligation limitation, apportionment balances, and FHWA approval action to change the status of the project to regular federal funds. The request to convert funds can occur for a number of reasons:

<u>August Redistribution</u>. Every year, the FHWA reallocates obligation limitation from those States that cannot use all of their ceiling to those that can demonstrate (a) that they can use additional ceiling and (b) that additional ceiling can be obligated before the end of the federal fiscal year. Having an inventory of projects on AC status allows the State to meet both conditions and capture additional federal funds.

Road Fund Cash Flow. By law, all federal reimbursements to IDOT for spending are deposited into the Road Fund. If the available balance in the Road Fund fell to levels that would jeopardize the its ability to pay all of IDOT's bills on time, it would be possible—provided there is sufficient unobligated ceiling and program apportionments—to convert one or more projects from AC status, thereby capturing all of the federal reimbursement associated with spending to

date on that project/those projects and placing that money in the Road Fund in a very short time frame. The key to making this work is to have projects on AC status. Subsequent Allocation of Discretionary Funds. As noted above, on rare occasions an allocation of funds from a discretionary program do not occur prior to the need to implement the project and the project is put on AC status by IDOT. In those cases, once the allocation has occurred, the project is converted to Current Funded status.

The Illinois Department of Transportation has instituted a process to identify projects using advance construction in their funding profile, and to track the use of the tool and the eventual conversion to regular federal funds. IDOT staff will provide notification of the advance construction funding status to metropolitan planning organizations such as the McLean County Regional Planning Commission. In turn, the MPOs will execute administrative modifications to the project information in the Transportation Improvement Program to reflect the change in status and the funding associated with the change.

APPENDIX 7

Transportation Improvement Program (TIP) Selection Process

In order to facilitate TIP project selection, the McLean County Regional Planning Commission Transportation Technical and Policy Committees have adopted the following procedure regarding TIP selection for projects that use any form of federal funding.

In FY 2018 the Technical Committee created an evaluation and scoring process for such projects programmed by the local governments. Generally, such projects are few in number in each program year for the local jurisdictions, although they may represent a notable percentage of the total project costs for those jurisdictions. See the main TIP report, which includes the completed scoring for the federal projects in the FY 2022 – 2026 TIP.

In accordance with the FAST Act and earlier legislation, the five-year TIP is financially constrained. That is, all projects in the first-year element have verified funding sources, and the projects in the second through fifth years have "reasonably available" funding sources. To provide a complete picture of the program not only as it is, but also as the local governments would prefer it to be, the TIP includes and inventory of "illustrative" projects, which are not currently fiscally constrained.

Project implementation priority is given to the first year of the TIP. However, special circumstances may arise necessitating moving a project originally designated for a later year forward to the first year. When such situations arise, it is preferable that the Transportation Policy and Technical Committees be apprised of the change and act to approve it as a TIP amendment. In instances where such a revision must be made on an emergency basis, it will be processed by staff with no action required of the Technical or Policy Committees. MPO staff at the regularly scheduled committee meetings will advise the Technical and Policy Committees of the project advancement, and provide for a ratifying TIP amendment if required.

APPENDIX 8 Public Involvement Process

In compliance with the provisions of the successive iterations of federal legislation, the McLean County Regional Planning Commission Transportation Technical and Policy Committees have adopted the following Public Involvement Process. Pursuant to the requirements of the Infrastructure Investment and Jobs Act (IIJA) and related federal transportation legislation, the Technical and Policy Committees have promulgated the McLean County Transportation Public Participation Plan, which constitutes the public involvement process to be employed in future transportation planning activities. The text of the participation plan as adopted in 2010 is included in this Appendix.

The public participation plan below remains in effect pending the adoption of a revised and updated plan.

Public Notice

Announcements and agendas for all Technical and Policy Committee meetings will be sent to the local news media and posted at the MCRPC office and online. Meetings of the Committees will be open to the general public. A mailing list will be established so that organizations or interested citizens can receive meeting announcements and agendas.

Transportation Improvement Program (TIP)

Members of the Technical Committee will be notified of the timetable for TIP preparation by agenda item. Project listings can then be submitted to the Technical Committee Chairman from which a draft TIP will be prepared.

The draft TIP will be reviewed by the members of the Technical Committee and will then be made available to the general public for their review and comment. The public review and comment period will be thirty days. Comments during the thirty-day period should be submitted in writing.

One public hearing for the TIP will be held prior to its adoption. A fourteen-day notice will be given prior to the public hearing. Similarly, a public hearing will be held for TIP amendments meeting the criteria of a Major Transportation Investment.

Metropolitan Long-Range Transportation Plan

The plan will be available to the general public for a 45-day review and comment period. At this time, written comments will be accepted. A public hearing will be held for the Metropolitan Long-Range Transportation Plan prior to its adoption. Fourteen-day prior notice of the public hearing will be given.

Public Comments

Public comments on the TIP, the Metropolitan Long-Range Transportation Plan, and the Public Participation Statement will be reviewed by the Technical and Policy Committees. All public review and comment periods and public hearings will be advertised.

Public Participation Statement

There will be a forty-five-day review and comment period held for the Public Participation Statement.

MCRPC Public Participation Plan

The McLean County Regional Planning Commission, acting as the metropolitan planning organization [MPO] for the Bloomington-Normal, Illinois urbanized area, and through the Transportation Policy Committee, adopts the following Plan to promote public involvement in transportation planning.

The MCRPC Public Participation Plan provides a process for meaningful public input into transportation decision-making. This process includes offering reasonable opportunities for the public to be informed and involved in the development of transportation plans and programs in the metropolitan area. Proactive outreach to educate and inform the public about transportation issues and options, and to elicit input from the public on transportation issues, is integral to the process. Consistent with the principles underlying the Infrastructure Investment and Jobs Act (IIJA), outreach is conducted early in the planning process, and is designed to ensure participation by traditionally underserved populations. The metropolitan transportation planning area refers to the City of Bloomington, the Town of Normal, and the adjoining portions of McLean County anticipated to be developed over the next 20-year period, and as defined in the Metropolitan Long-Range Transportation Plan 2050.

Therefore, the McLean County Regional Planning Commission shall provide a reasonable opportunity to comment on proposed plans for citizens, affected public agencies, representatives of public transportation employees, freight shippers, providers of freight transportation services, private providers of transportation, representatives of users of public transportation, representatives of users of pedestrian and bicycle transportation facilities, representatives of persons with disabilities, and other interested parties.

Components or objectives of the existing public involvement process followed by the McLean County Regional Planning Commission have been revised to incorporate elements required of a Participation Plan process by the Infrastructure Investment and Jobs Act (IIJA) and reauthorizations thereof. Sections A thru C of the Participation Plan address the participation process. Section D addresses the agency consultation process required by IIJA relating to the metropolitan transportation plans and programs.

Section A: Participation Plan Elements

- 1. Public notification will be provided not fewer than 15 days nor more than 30 days in advance of consideration of action by the Policy Committee of the McLean County Regional Planning Commission on proposed metropolitan long range transportation plan updates, transportation improvement programs, and where amendments to these planning documents.
 - a. To provide time for full public review and comment on the draft participation plan, and pursuant to 23 CFR §450.316(a)(3), public notification will be provided no less than 45 days in advance of action on this document by the Policy Committee of the McLean County Regional Planning Commission.
 - b. The draft Transportation Improvement Program [TIP] will be reviewed by the members of the Technical Committee and will be made available to the general public, as specified below, for review and comment. Pursuant to 23 CFR 450.316(b)(1)(iv), the public review and comment period will extend a minimum of 30 days. Comments during the thirty-day period should be submitted in writing. One public hearing for the TIP will be held prior to its adoption, during which public comments will also be received. TIP amendments shall be considered and acted upon in the course of public meetings of the Technical and Policy Committees, as required pursuant to 23 CFR 450.104. Events defined as requiring an amendment to the TIP include major changes to a project, including the addition or deletion of a project or a major change in project cost, project/phase initiation dates, or a major change in design concept or design scope.
 - c. The Metropolitan Long-Range Transportation Plan will be available to the general public for a 45-day review and comment period. A public hearing on the Long Range Transportation Plan will be held prior to its adoption.
- 2. A meeting notice will be provided electronically to local news media, including local public television as applicable, one week in advance of each regular Policy Committee and Technical Committee meeting. Reasonable access to available information about MPO sponsored transportation studies in the metropolitan area will also be provided.
- 3. Available resources, including web-based mapping, published maps and illustrations and other graphic data will be used by the MPO to visually convey information related to and improving understanding of metropolitan transportation plans and programs.
- 4. Public information related to transportation plans and programs and meeting notices of the McLean County Regional Planning Commission will be provided electronically on the MCRPC website at mcplan.org, including draft and final versions of the Participation Plan. The website will also provide meeting agendas and minutes, information on the purpose, programs and structure of the Regional Planning

- Commission, information on MPO planning projects and studies, and contact information for MPO staff.
- 5. Public meetings sponsored by the McLean County Regional Planning Commission will be held at convenient locations and times. A citizen information period will be provided during each regular MPO Policy Committee meeting, at the discretion of the Chairperson.
- 6. Public input received during the development of the metropolitan transportation plan and the transportation improvement program will be given consideration by the MPO. Significant public comments received will be reported by staff to the Policy Committee and the Technical Committee.
- 7. Outreach efforts seeking input on metropolitan long-range transportation plans and programs from low income and minority households traditionally underserved by existing transportation systems will be continued and documented. All public participation activities of the McLean County Regional Planning Commission shall be conducted to support involvement by persons with disabilities, and by persons with limited English proficiency, upon request.
- 8. Public notices advising citizens in the metropolitan area of the availability of draft transportation plans, transportation improvement programs and conformity reports in local public libraries will be continued. Additional opportunity for public comment will be provided if the final metropolitan transportation plan or transportation improvement program or conformity analysis differs significantly from the version initially made available for public review.
- 9. The implementation of the McLean County Regional Planning Commission Participation Plan will be coordinated with the statewide transportation planning public involvement and consultation processes developed, as appropriate, with agencies and officials responsible for other planning activities within the metropolitan area that are affected by transportation.
- 10. The overall effectiveness of procedures and strategies contained in the Participation Plan to ensure a full and open participation process will be reviewed periodically by the McLean County Regional Planning Commission.

Section B: Disposition of Significant Comments

1. When significant comments are received on the draft Metropolitan Long-Range Transportation Plan 2050 or the Transportation Improvement Program as a result of the Participation Plan, a summary, analysis, and report on the disposition of comments shall be made as part of the final Metropolitan Transportation Plan and Transportation Improvement Program.

Section C: Agency Consultation on Other Planning Activities

- 1. As the transportation plan and the transportation improvement program are developed, the MPO shall consult, as appropriate, with agencies and officials responsible for other planning activities in the metropolitan area affected by transportation in order to coordinate planning functions to the maximum extent practicable. The McLean County Regional Planning Commission, through technical assistance and direct participation, contributes to the planning processes of its constituent governments, agencies and partners. Such contributions involve the formulation of regional and local planning and development policy, and the implementation of program and project objectives.
- 2. The McLean County Regional Planning Commission process for public review, participation and comment on the Transportation Improvement Program serves as the public participation process for the Bloomington-Normal Public Transit System (Connect Transit) and SHOW BUS programs of projects.
- 3. The nature of the consultation shall include comparison of metropolitan plans and transportation improvement programs, as they are developed, with the plans maps, inventories, and planning documents developed by other agencies.
- 4. Interested parties, public and private, responsible for planned growth, economic development, environmental protection, airport operations, freight movements, land use management, natural resources, conservation, and historic preservation in Bloomington-Normal and McLean County shall be included in the planning consultation process, as appropriate. Interested parties whose early and continuous involvement shall be sought include but are not limited to:
 - affected public agencies
 - representatives of public transportation users and employees
 - freight shippers and providers of freight transportation services
 - private providers of transportation
 - representatives of users of pedestrian walkways and bicycle transportation facilities, representatives of the disabled
 - members of the public

Interested parties shall have access to timely information about transportation issues and decision-making processes, and to avenues for direct involvement in the transportation planning process.

5. Metropolitan transportation plans and transportation improvement programs shall be developed with consideration for governmental agencies and non-profit organizations receiving Federal assistance from a source other than the U.S. Department of Transportation for the design and delivery of non-emergency

transportation services.

- 6. The MPO, in cooperation with the Federal Highway Administration, shall provide to all interested parties access to an annual listing of Federally Obligated Projects.
- 7. The MPO will consider the future development of an operations plan for consulting with other governmental agencies responsible for the development of plans affected by transportation in the metropolitan area

Section D: Public Participation Plan Evaluation

- The McLean County Regional Planning Commission shall conduct periodic review of public participation activities and initiatives, and shall revise or amend the Public Participation Plan as needed to enhance public participation in the transportation planning process.
- 2. Distribution of the McLean County Regional Planning Commission newsletter VISIONS shall be monitored, and changes in the volume distributed assessed. VISIONS is disseminated as a printed document via the U.S. Postal Service, as an electronic document distributed to an email list, and as a downloadable document posted on the Commission website (www.mcplan.org).
- 3. Postings to the Commission website shall be inventoried and monitored to assess completeness, timeliness and ease of access. Technology to assess frequency of website viewings shall be used to evaluate the impact of the website in providing information and participation opportunities to interested parties and the public.
- 4. All meeting agendas and minutes of the Transportation Technical and Policy Committees shall be made available on the Commission website. As practicable, supporting documentation cited in agendas and minutes shall also be made available through the website. Website postings relating to the Committees shall be monitored and evaluated pursuant to Section D, paragraph 3, above.
- 5. The McLean County Regional Planning Commission shall conduct ongoing assessment of the implementation of the Public Participation Plan elements as set forth in Section A, paragraphs 1 9, above.
- 6. In addition to the evaluation described in paragraph 5, above, evaluation criteria shall include the elements presented in Table 1, below, which shall be considered by the Regional Planning Commission and the Technical and Policy Committees in assessing the Public Participation Plan:

Tools and Measurements				
Participation Tool	Quantitative	Qualitative		
Mailing Lists	 Number of Additions to Mailing List Diversity of Representation Quantity of Educational Materials Distributed 	 Concise and Clear Information Portrayed Effectiveness of Newsletter Format 		
Public Forums	 Number of Events/Opportunities for Public Participation Number of Comments Received Number of Participants Number of Methods Used to Reach Disadvantaged/Disabled Citizens Diversity of Attendees 	 Effectiveness of Meeting Format Public Understanding of Process Quality of Response Obtained Timing of Public Participation Meeting Convenience, i.e. Time, Location and Accessibility Use of Public Input in Developing Plan 		
Commission/Committee Meetings	 Number of Comments Received Number of Participants Number of Methods Used to Reach Disadvantaged and/or Disabled Citizens Diversity of Attendees 	 Effectiveness of Meeting Format Public Understanding of Process Quality of Response Obtained Meeting Convenience, i.e. Time, Location and Accessibility Use of Public Input in Developing Plan 		
MCRPC Website/Social Media Outreach	 Number of MPO Documents Number of Site "Hits" per Quarter Number of Comments and Suggestions Submitted 	 Timeliness of Document Updates Announcement of Meetings Accessibility of Information (Site Format) Quality of Response Obtained 		

- 7. The Public Participation Plan shall be reviewed every five years (from date of first adoption) by the staff of the Regional Planning Commission to assess the effectiveness of its procedures.
 - a. Staff shall submit recommended revisions or amendments to the Transportation Technical and Policy Committees.
 - b. Pursuant to 23 CFR 450.316(a)(3), action by the Technical and Policy Committees to adopt revisions to or amendment of the Public Participation Plan shall be preceded by a period of public review and comment of not less than 45 days.

APPENDIX 9

Public Comments

A public hearing regarding the draft FY 2024 – 2028 Transportation Improvement Plan will be held on June 16, 2023 during a scheduled meeting of the Transportation Technical Committee.
